MONDAY MORNING, SUPP. 25.

LUCKY MAN.—A friend of ours who resides in the Fifth Ward recently became the owner of a very remarkable horse. The animal turns out to be quite a prize, and verifies the truth of the old adage, that "appearances are very deceptive." Our friend does not profess to be versed in horseology, in fact knows less about the horse than the horse does about him. He purchased him at a government sale, paid his money and took him for better or worse. The animal having been trained to war his bump of combativeness is largely developed and the habits acquired in his enemies he lets fly with his hind propellers in a manner that is very annoying to his owner who has received a couple of reminders that cause him to keep at a very respectful distance. When he desires to get abourd of the When he desires to get abourd of the critter he does it by what is termed in Bellair, four miles below us. We like

The animal, however, makes amends for these little eccentricties of character by his extraordinary bottom of speed, there probably not being a horse in the country that can stay with him on a fair test. We presume our friend will enter him for the sweepstakes at the October Fair.

United States Compound Interest Notes.—There appears to be some serious difficulty about the one hundred dellar denomination of the United States comdound interest bearing notes. The difficulty originates from the fact that fraudulent notes have been put in circulation which are fac similes of the genuine, or so nearly so that experts will be unable to detect the counterfeit. It is supposed that the original dies and plates on which these notes were printed have been in improper hands, or that fac similes have been obtained by the electrotype process. Another supposition is that some of the employees in the Treasury Department may have been including in an unauthorized issue of these notes. Let the explanation be what it muy, the discovery of the fraud is creating considerable apprehension, and its likely to occasion very considerable inconvenience to the hold.

In reference to the wagon and mule train that passed through Wheeling last week, a Columbus correspondent thus writes on Friday last:

"A train, consisting of 250 army wag-ons, 2 ambulances, and 6 forges, under the direction of Captain Mandeville Quartermaster of the 5th Corps, passed through the city to-day on the National road, en route for Leavenworth, Kansas. Each wagon is drawn by six mules, and in addition there are five extra mules for every twenty-five teams, making in all 1,550 mules. The train left Washington City Au-

A NEW ARTICLE.—The Lin Rhel, or American Sherry, is a new article of wine, which is being introduced in this city by Mr. Wm. Bair. It is said to be excellent as a beverage, and is also highly recommended for its medicinal qualities, being a certain cure for chronic diarrhesa. The plants for making the wine can be procured from Mr. Bair at his store room, corner of Market and Union streets.
